Special Offer: Pink Eye & Half Coupler Clamp (SPE001)

Pink Eye

The Pink Eye is an articulated M12 eye nut with a safe working load (SWL) of 750kg, manufactured from high tensile annealed steel. 100% electromagnetic crack detected according to EN 1677-1. Unlike standard eye nuts manufactured to DIN 582, this eye nut can be used for most unfavourable load directions. The pull on most eye nuts must be restricted to the plane of the eye. However, this eye adjusts through 360° to align with the direction of pull.

Material	High tensile steel
Thread	M12
Safe working load (SWL)	750kg
Finish	Powder coated (pink)

Half Coupler Clamp

Combining strength and durability with a high degree of safety, this half coupler clamp is constructed from high tensile aluminium and provides secure fixing for tubes with external diameters of 48 - 51mm.

The standard clamp is slotted, allowing for the use of a captive M12 nut or bolt head, enabling users to create fixings suited to their own individual requirements. This clamp has a SWL of 750kg.

Material	High tensile aluminium
Thread	M12
Safe working load (SWL)	750kg
Finish	Powder coated (black)

The complete package including the Pink Eye and Half Coupler Clamp have an approved SWL of 750kg and is currently available for the special offer price of only £75.00 (RRP £105.00). Limited stocks available. Contact Jodie Rhodes in the Standard Products Department and quote the product code SPE001 for further details.
