## Jesmond Road Primary School: January 2012

Jesmond Road Primary School, a Victorian building located half a mile from the centre of Hartlepool, UK, underwent a complete restoration in 2011 in which J&C Joel installed a range of drapes within the school's teaching areas.

In a concept designed by GWK Architects, the school's traditional classrooms were replaced with large, circular rooms adjoining the main corridor. J&C Joel provided acoustic masking curtains that, when drawn, cordon these individual teaching areas off from the school's main corridor and other classrooms.

J&C Joel supplied and installed nine twin-2Way track systems around the perimeter of the school's classrooms from which acoustic masking curtains manufactured by J&C Joel were hung.

The drapes themselves were manufactured from a bespoke serge fabric that was decorated with colourful circular panels made from the same fabric. J&C Joel manufactured the curtains with interlining layers of J&C Joel's Standard Wool Serge (WS001) to reduce sound passing through the curtains and into adjoining classrooms.

Bespoke acoustic drapes act as the dividing walls between the classrooms in Hartlepool's Jesmond Road Primary School.

### An education in draping

With over thirty years of experience and a complete range of fabrics and tracking options, J&C Joel can design and manufacture bespoke draping solutions for any application.

For more information on the range of products available, contact J&C Joel's sales department or consult the J&C Joel product catalogue.

The acoustic masking drapes were hung from nine twin-2Way tracking systems designed and installed by J&C Joel.
