Care	Information	Inherently Flame Retardant to BS5867 Part 2 Type B and B1. This means that the man-made fibres are flame retardant for life and if wet, would not need to be re-flameproofed. Therefore, the cloth will withstand wet cleaning but we would advise and suggest professional dry cleaning only, using the correct chemical process. Notwithstanding the aforementioned, it would be our advice to only delicately dry clean this material at 30°.
