General building standards control test certificate

Test certificate number:

P-BWU03-I-16.5.181

Subject:

Fire retarding agent “FLACAVON R neu” for treating cellulose fibre fabrics (except jute) as a flame-resistant building material (building materials class DIN 4102-B1) as per the Administrative Regulation for Technical Building Regulations (VwV TB) for the state of Baden-Württemberg dated 20 December 2017, ser. no. C 3.4

Date of issue:

12 February 2018

Valid until:

30 November 2022

Based on this general building standards control test certificate, the subject specified above can be used as per the state building codes.

[university stamp]

This general building standards control test certificate comprises 7 pages and 0 attachments. This general building standards control test certificate replaces the general building standards control test certificate P-BWU03-I-16.5.181 of 22 February 2013. A building standards control certificate for use was first issued for the subject on 14 December 1978. Stuttgart applies as the place of jurisdiction and place of performance.
