Challenges & Successes

The iconic Vampire Station had been without its Flaming Torches for a number of Years and J&C Joel were chosen to work in partnership with Merlin entertainments in bringing them back to life. It was a challenging environment to get access as Theme Park was open meaning partial work was being carried out at the end of the day. We installed Control for 3x Motor Hoists in an order where they can be controlled separately to make maintenance easier. We Installed 3x Circular Trusses and coated black to meet client needs for the area.

Technical Components

- We supplied a Next Stagelift 4 CH Controller and a Next Stagelift NSL- HC Wired Remote Controller with 2 Push Buttons Up-Down and Emergency Stop.
- 3x Next Stagelift 250kgs Hoists and associated Cabling and Steels.
- NX33 2m Circular Trusses.
